» advectionagency

Talented producer from Armenia Nemanoe has been in love with good quality music for years. Nemanoes main musical visions are about the old skool, any the kind of deep and emotional feelings. Drum & Bass is one of his favourite styles and more preferred for the making tracks, but he also loves deep experimental and different music.

Being a big fan of the classic tunes he have been inspired by the music from the labels such as Good Looking Records, Vibes Recordings, Outsider, Arctic Music, Covert Operations, Camino Blue and many more.

His been producing electronic music since 2008. In the late spring of 2011 formed the group 'The Outerworld' working with Bass'flo (UK). Already having tracks released on Advection Music, also expect further releases on Vibez recordings in 2012.

Biggest thing so far..

* Being featured on the debut LP CD release on Advection Music 'AMPRODUCER01'
* Remixing for legendary Producer 'Aural Imbalance' as the Outerworld
