Mc Smilee has been representing the drum 'n' bass midlands scene on the microphone for years. Before getting his break into the scene as a MC, Smilee worked behind the scenes for the legendary Kool FM Midlands & Music First events.

This gave Mc Smilee the schooling required to understand how the drum 'n' bass industry worked and gained valuable experience and the network to make it happen. Along the years as a MC, Smilee has shared the stage with some of the best MC's in the business the likes of GQ, Conrad, Biggie, Foxy, Warren G, Imperial LP & has also found the mic in his hand hosting sets for the likes of SS, Kenny Ken, Hazard, Bailey, Nicky Blackmarket, JB & Spice just to name a few.

It was when Smilee formed a partnership with DJ Jay Le Roc did the whole music level flip into the deeper progressive sound. Since this partnership formed and the link with DJ Tidal and the creation of Central Projection. Mc Smilee made his international Debut in New York City & San Francisco USA & featured on KUSF Radio Future Breaks Show) back in 2006.

Smilee is the only person to be resident at the Birmingham Progression Sessions / Bukem In Session nights where he has Mc'ed with Conrad over Furney and DJ's Tayla set.

Watch this space for future collaborations and appearances in 2011.
